

**A C A D E M Y**

Cloud-based Manual and  
Automation testing courses

# Instructions

1

There are two courses, Manual App Testing & Appium automation Testing.

2

Course duration is 2 hrs for manual and 3 hrs for Appium automation.

3

It's recommended to start with the manual testing course and then move on to the Appium automation testing course.

4

Before starting the course, register at pCloudy platform :  
<https://device.pcloudy.com/>

5

You will find all the information like course details, prerequisites, target audience, etc, on this page : <https://www.pcloudy.com/pcloudy-certification/>

6

Click on the "Enroll now" button on the above mentioned page, to register for the course. Once you are logged in, you will be able to see the course catalog.

7

If you users face any issue, you can send messages through an online help option and our support team will get in touch with you.

8

Have a look at the [FAQs](#) on the certification home page.
